

— explanatory note —

The seat drop value described in the compatibility table is primarily a value relative to the original-equipment seat.
It is measured by mounting a Recaro Reclining seat.
Differences may arise due to the position of the thickness and shape of the bottom of the seat, and seat settling due to aging of the original-equipment seat.
Note: If the original-equipment seat incorporates a height adjustment function, this value is relative to the lowest position.
Note: As a general rule, driver's seat data (passenger seats have different values depending on the presence or absence of height adjustment function)

MAZDA

Model Name	Model Code	Seat Drop	Type	Right Part No.	Left Part No.	Side SRS	Remarks
AXELA	BK5P,BKEP,BK3P	-20mm	B4	DMA1120B04R	DMA1120B04L	NPC001
